

Bullivants

PE Silver Rope

Silver rope has superior strength and has a distinctively hairy appearance. Silver rope is versatile and strong, with exceptional handling properties due to its surface characteristics. Available in both reels and coils.

Main Features:

- Strong and versatile with excellent handling properties due to its surface characteristics
- Easy to handle and knot
- UV resistant with excellent weathering properties
- Wear and abrasion resistant
- Floats on water
- Water resistant
- Resistant to fungal attack
- Suitable for industrial and marine applications where high resistance to abrasion is required
- Not to be used for lifting
