Polypropylene Green Rope

Polypropylene Green Rope is a high strength rope with good shock absorption. It is a general-purpose rope which is strong and easy to handle. Available in coils and on reels on request.

Main Features:

- Tough, extremely strong and easy to work and knot
- UV stabilised with excellent wearing properties and a high strength to weight ratio
- Resistant against rot, most acids, alkalis and other chemicals
- Low stretch and good knot retention
- Floats on water, zero absorption
- Suitable for a range of industrial areas, particularly marine, construction, mining, rural, commercial fishing and petroleum
- Not to be used for lifting
