Gravity® Suspension Harness

Rope Access, Rescue, Telecommunications, Oil And Gas, Wind Energy and General Industry

The MSA **Gravity® Suspension Harness** is designed to offer superior comfort, safety and quality to professionals and specialists who work at heights suspended.

Product Highlights:

- Strategically positioned ventral attachment distributes the load between the waist belt and leg loops during suspension.
- The breathable waist pad is constructed from a multi-layered padding which dissipates pressure from the webbing to reduce fatigue when working for long periods of time.
- Bayonet buckles with locking engagement window confirms a secure connection.
- Shoulder padding protects the neck from chafing while providing the necessary back support.
- Premium hardware fittings with wide opening aluminium D-Rings, triple action karabiner and single hand adjusting buckles.
- A total of five rigid tool loops on the waist belt and leg connections.
- Side D-Rings can be conveniently stowed away when not in use.
- RFID enabled for easy tracking.
- Available in 3 sizes.
- Certified to AS/NZS 1891.1:2007.

Applications

- Rope Access
- Rescue
- Telecommunications
- Oil and Gas
- Wind Energy
- General Industry
