## WHY BULLIVANTS

With over 130 years' experience, Bullivants is recognised as Australia's largest continuous technical provider of lifting and rigging solutions. Founded on a reputation for quality and safety, Bullivants has provided comprehensive solutions to support customers with safe operations. Safety remains our number one priority, designing and building Zero Harm into everything we do. Since 2006, Bullivants has operated within the Industrial and Safety Division as a part of Wesfarmers. The support provided by the Wesfarmers group strengthens Bullivants' ability to provide industry leading service and solutions to our customers.

Bullivants knows what it takes to stay ahead of the game. Providing the largest range of high-quality lifting, rigging and height safety equipment, Bullivants can also accommodate any custom engineered or fabricated equipment requirements.

With a nationwide network, Bullivants testing and installation service capabilities are provided according to the relevant ISO and Australian Standard certifications, and accreditations providing reassurance that we are a leading supplier to the industrial sector.

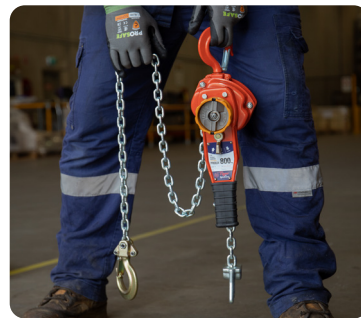

## OUR PARTNERS

Bullivants understands the unique requirements of projects or sites operating in remote regions. With a large range of world renowned exclusive and strategic suppliers within the product portfolio, Bullivants understands the challenges customer face.

Both Bullivants and our suppliers understand customer requirements are crucial for ensuring safety, efficiency and meeting application needs. Also understanding unanticipated downtime and costly delays as a result of sourcing equipment and services.

The Bullivants global supply network provides customers access to the best available products.

## BULLIVANTS ELECTRONIC ASSET MANAGEMENT SYSTEM

Using the Bullivants online lifting and rigging asset management system to manage and access your equipment's status and history, keeps you informed and reduces risk. To know whether an item is in or out of service 24 hours a day is just a few clicks away.

BEAM provides maximum operational efficiency to visual inspections and lifting gear registers. Accessible via a secure web, BEAM improves the traceability of valuable assets, 24 hours a day, 7 days a week.

Benefits:

- Instant update identifying items as passed, failed or unable to be found.
- Support for RFID & QR Code electronic tags.
- 24 hours/7 day access.
- Asset templates are now available to provide control over how assets are created in the system.
- Removal of potential errors when handwritten.
- Attach multiple files to an asset.
- Export capability of asset details.
- Comprehensive assess, search filter options.
- Quick condemned assets removal for faster replacement response.
- Improved reporting options.

## OUR COMMITMENT

At Bullivants, we pride ourselves on being NATA approved and ISO accredited. Our mechanical testing laboratories have industry leading test equipment to ensure compliance with Australian Standards, guaranteeing the safety of your equipment and people.

Bullivants aim is to help industry operate safely and efficiently. The range of services includes system or product selection support to provide the most efficient product based on the application. Our customer service team are available to assist in identifying a range of options to meet your application requirements.

Our team are highly qualified and trained problem solvers specialising in lifting, rigging and fall protection. We ensure the team stays up-to-date with safety standards and best practices in managing heavy loads and working at heights.

Bullivants further supports industry by having Australia's most extensive distribution network. Our strategically located branches enables quick turnaround of customer orders, ensuring you get what you want, when you need it.

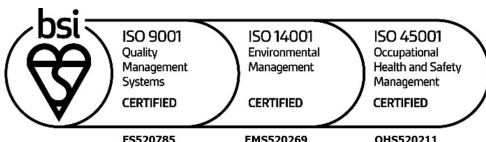

## Accreditation & Quality

Our dedicated commitment to helping our customers achieve a safe work environment, ensure compliance to regulations, codes of practice and Australian Standards.

Bullivants is an approved and accredited installer, maintainer, and inspector to the relevant Australian Standards for all products used. Across Australia and offshore, Bullivants has been providing NATA accredited lifting and rigging equipment testing services for over 60 years.

Bullivants testing and installation services are provided according to the following relevant Australian Standard certifications and accreditations:

- ISO45001: Occupational Health & Safety Management Systems
- ISO9001: Quality Management Systems
- ISO14001: Environmental Management Systems
- ISO17025: Competence of Testing & Calibration of Laboratories
- ISO17020: General Criteria for Operation of Various Bodies Performing Inspection

Bullivants is a leading member of Standards Australia, and we continually provide support to our world class lifting and rigging industry.

## Safety & Wellbeing

Keeping safe is a continuous challenge and one we believe worth taking on.

We believe in ZERO HARM and this into our product and services capabilities.

## Safety is our number one priority

Understanding potential risk and danger is vital to keeping workers safe. To ensure the safety of our team and yours, Bullivants have safety procedures/tools in place to minimise the risk.

## CORPORATE SOCIAL RESPONSIBILITY

### Ethical Sourcing

Bullivants are committed to working with supply chain partners to meet ethical business practices and sustainable solutions while providing the highest quality products.

Products are proactively sourced responsibly, to improve social and environmental practices in accordance with world recognised standards to reduce the risk of Modern Slavery. By safeguarding the behaviour in our supply chain, we help protect the brands, the wellbeing of workers and the communities of factories we work with.

### Sustainability

In accordance with Wesfarmers' Climate Policy, Bullivants is committed to reducing the environmental impact of its business activities where practicable by:

- Reducing waste, reusing and recycling.
- Proactively managing and reducing Scope 1 and 2 greenhouse gas emissions by adopting energy efficiency opportunities.
- Working closely with our key suppliers and customers to identify sustainability improvements.

### Indigenous Engagement

Bullivants are committed and focused on making a positive impact and contribution to improve equity in accessing opportunities for Aboriginal and Torres Strait Islander people and the broader community.

- The Bullivants Indigenous Scholarship Program - supports First Nation University students in achieving their academic aspirations by providing financial support.
- The Clontarf Foundation partnership - provides school-based traineeships for Aboriginal and Torres Strait Islander secondary students.

## OUR NATIONAL NETWORK

With 18 strategically located branches across Australia, Bullivants is uniquely positioned to support the lifting and rigging industry on a national scale - minimising downtime and reducing freight costs for our customers.

While all Bullivants locations offer comprehensive product supply and field services, our six key hub branches, located in Perth, Newcastle, Mackay, Wollongong, Sydney, and Melbourne, are equipped to meet your specialised manufacturing requirements.
