

Heavy Duty Load Guiding Tool

No Touch Load Guiding and Material Handling

STEER-STIK LOAD GUIDING TOOL

Finally a heavy duty hands free load guiding tool that is up for the challenges you face everyday. Steer-Stik is a rigid push, pull, hook and grab tool used to control and position many different types of suspended loads. It's also a good material handling tool. Steer-Stik is light but very durable and has a tool head that can be rotated 90° to give the user the most comfortable grip or hand position.

Features:

- Heavy duty no touch load guiding tool
- Rotating and locking D-handle
- Aluminium tool head rotates 90°
- Reflective bands
- Non-slip, abrasion resistant handle
