

Bullivants

100% Nylon Rope

100% Nylon rope is high stretch and performs well in shock loading situations. Rope available in coils and on reels on request.

Main Features:

- Excellent strength, extension and recovery characteristics
- Easy to handle and knot
- Resistant against rot and mildew
- Ideal to use in applications where sudden shock is applied to the rope
- Resistant to damage by most chemicals
- 3 stranded Rope
- Loses strength when wet
- Suitable for general and industrial applications, particularly marine and shipping where performance, high strength and good elasticity are required
- Not to be used for lifting

Bullivants Mfr No.	Diameter mm	Maximum Breaking Force kN	Colour	Length m	Unit of Measure
