

Bullivants

Transport Cages

Bullivants offers robust transport cages designed for industrial use. Optional dividers allow for flexible compartmentalisation. All cages feature foldable doors and compact folded height for efficient storage.

Main Features:

- SWL - 1090kg (when stacked 4 high)
- Built to handle the tough conditions of transport and warehouse operations
- Half height cages fitted with down gates
- Collapsible to 380mm for easy storage and transport
- Mesh sides with sheet metal floor
- Zinc plated
- 4 Way forklift/pallet truck entry
- Suitable for pallet racking
- Cage dividers available (sold separately)
