

MULTI-GRAB II

An extremely versatile material handling, lifting and pulling hand safety tool. MULTI-GRAB II helps your employees keep their hands off it and away from hazardous pinch, crush and cut points. The D-handle allows for a sure single handed grip on steel sheet, scrap, drop, assemblies, parts, equipment and more. Use it on work tables, welding tables, water jetting tables, assembly lines and in many steel fabrication operations. MULTI-GRAB II products are tough and durable and can last years. They are lightweight and compact so they will go and fit just about anywhere.

Features:

- Magnetic and no touch tool to hold, lift, guide and position
- Easy to attach/release
- Lightweight and super tough
- Lower pivot point means more push/pull force can be applied
- Pivots 180° and rotates 360°
- Durable and strong
- Keep fingers and hands away from dangerous pinch or crush points
- Precision CNC aluminium manufacturing
- Over 500LBS/226kg of magnetic pull force
- Easy to attach almost anywhere
- Suitable for fabrication shops, steel mills and manufacturing

MULTI-GRAB III

A hands free magnetic tool with a Locking Feature and perfect for Holding, Positioning, Lifting and performing many Suspended Load Control operations. MULTI-GRAB III helps your employees keep their hands off it and away from hazardous pinch, crush and cut points. The D-handle allows for a sure single handed grip on steel sheet, scrap, drop, assemblies, parts, equipment and more. Use it on work tables, welding tables, water jetting tables, assembly lines and in many steel fabrication operations.

Features:

- 3 Function locking pin

Bullivants Mfr No.	Length in.	Length mm	Magnet Strength kg	Locking System	Handle Type	Weight kg
43050349	30	762	250	-	T-handle	2.08
43050340	12	305	250	Yes	D-handle	1.13
43050368	36	914.4	249	-	D-handle	1.81

Multi-Grab Magnetic Hand Safety Tools

Hold, Lift, Carry, Guide and Position

MULTI-GRAB IV

An extremely versatile material handling, lifting and pulling hand safety tool. MULTI-GRAB helps your employees keep their hands off it and away from hazardous pinch, crush and cut points. The D-handle allows for a sure single handed grip on steel sheet, scrap, drop, assemblies, parts, equipment and more. Use it on work tables, welding tables, water jetting tables, assembly lines and in many steel fabrication operations.

Features:

- EZ lever release for simple magnet release
- Pivots 112° and rotates 360°
- Rotating D handle (excludes 12")
- Reflective bands (excludes 12")
- Extends and locks in 3 positions (64 to 90" only)

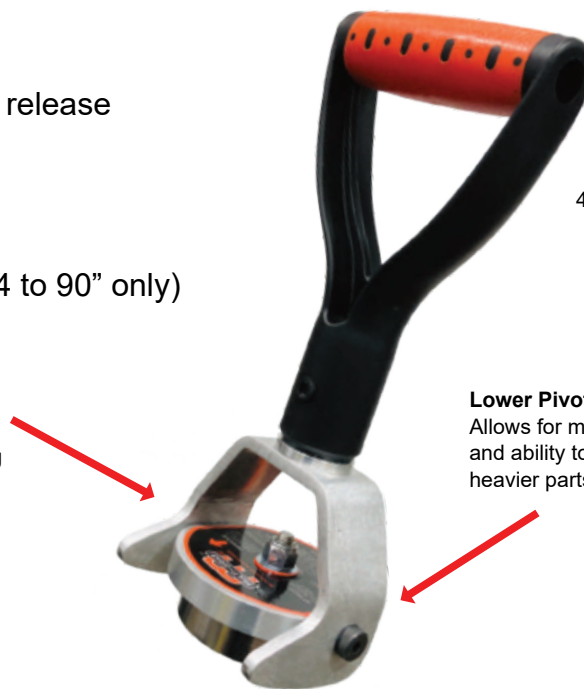

43050338

EZ Lever Release

Precision laser cut aluminum CAM designed to make removing the magnet from steel quick and easy. Just push handle forward.

Lower Pivot Point

Allows for more push/pull force and ability to drag or move heavier parts and pieces.

Bullivants Mfr No.	Length in.	Length mm	Magnet Strength kg	Handle Type	Weight kg
43050338	12	305	250	D-handle	1.36

Magnetic Load Control, Lifting, Pulling & Material Handling

Explore The Possibilities with Multi-Grab IV Tools

MULTI-GRAB IV 24" & 36"

With the success of the MG004, it was a natural progression to realize longer reach tools would be useful in many situations. The longer MG004 series of tools are great for material handling, suspended load control, lifting/pulling and positioning a variety of steel parts, assemblies and heavy equipment.

Wide Range of Uses!

With it's super low pivot point and multi axis articulation the Multi-Grab IV is the magnetic tool that can do it all.

Features:

- EZ lever release for simple magnet release
- Pivots 112° and rotates 360°
- Rotating D handle (excludes 12")
- Reflective bands (excludes 12")
- Extends and locks in 3 positions (64 to 90" only)

43050345

43050351

With a lower pivot point that is closer to the steel surface and a freely spinning magnet the MG004 series of short reach tools can accomplish a multitude of suspended load, lifting/pulling and material handling tasks.

Bullivants Mfr No.	Length in.	Length mm	Magnet Strength kg	Handle Type	Weight kg
43050345	24	610	250	D-handle	1.9
43050351	36	915	250	D-handle	1.81

Magnetic Load Control & Positioning

Push, Pull & Position Suspended Loads With Precision

MULTI-GRAB IV 60" & XL

With the success of the Multi-Grab, it was a natural progression to realize longer reach tools would be useful in many situations. The longer Multi-Grab series of tools are great for suspended load control and positioning a variety of steel parts, assemblies, raw materials and heavy equipment.

Wide Range of Uses!

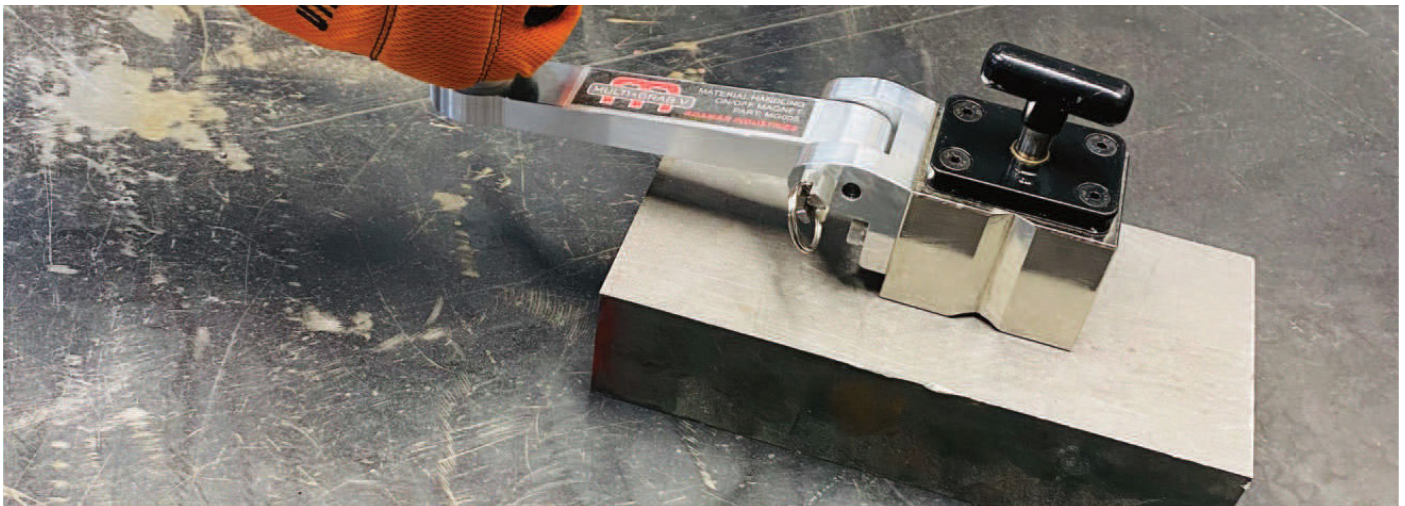

With it's super low pivot point and multi axis articulation the Multi-Grab IV is the magnetic tool that can do it all.

Features:

- EZ lever release for simple magnet release
- Pivots 112° and rotates 360°
- Rotating D handle (excludes 12")
- Reflective bands (excludes 12")
- Extends and locks in 3 positions (64 to 90" only)

Bullivants Mfr No.	Length in.	Length mm	Magnet Strength kg	Locking System	Handle Type	Weight kg
43050435	60	1525	250	Yes	D-handle	2.49
43050346	64 - 90	1626 - 2286	250	Yes	D-handle	3.4

MULTI-GRAB V

An extremely versatile material handling, lifting, pulling & holding magnet with On/Off functionality. Place the magnet on steel, turn it on and get 172 kg of magnetic grip force. Turn it off to release and demagnetize. Includes a proprietary 2 position locking handle that allows the user to select the best handle position for the job. "V" grooves to grip rounds and rods on the bottom of the magnet and 2 sides.

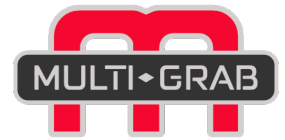

Features:

- Switchable ON/OFF magnetic mechanism for controlled lifting and placement
- Integrated handle design providing a secure and comfortable grip during use
- Slim, portable form factor designed for extended reach applications
- Heavy duty construction engineered for demanding industrial environments
- Quick-connect functionality allows fast engagement and disengagement
- Suitable for use in industrial and confined locations including rigs, tanks, vaults, shafts, pits, and maintenance access points

Bullivants Mfr No.	Length in.	Length mm	Magnet Strength kg	Locking System	Weight kg
43050364	9	228.6	172	Yes	1.58

ON-OFF Magnetic Lifting, Pulling & Material Handling

Explore The Possibilities with Multi-Grab V Tools

MULTI-GRAB V 12D & 24D

With the success of the MG005, it was a natural progression to realize longer reach tools would be useful in many situations. The longer MG005 series of tools are versatile On - Off Magnetic Tool for Material Handling, Holding, Positioning, Lifting and Suspended Load Control.

Wide Range of Uses!

From picking up small parts, debris, drop, scrap to carrying small parts and assemblies from work table to cart or to another work area.

Features:

- Switchable ON/OFF magnetic mechanism for controlled lifting and placement
- Integrated handle design providing a secure and comfortable grip during use
- Slim, portable form factor designed for extended reach applications
- Heavy duty construction engineered for demanding industrial environments
- Quick-connect functionality allows fast engagement and disengagement
- Suitable for use in industrial and confined locations including rigs, tanks, vaults, shafts, pits, and maintenance access points

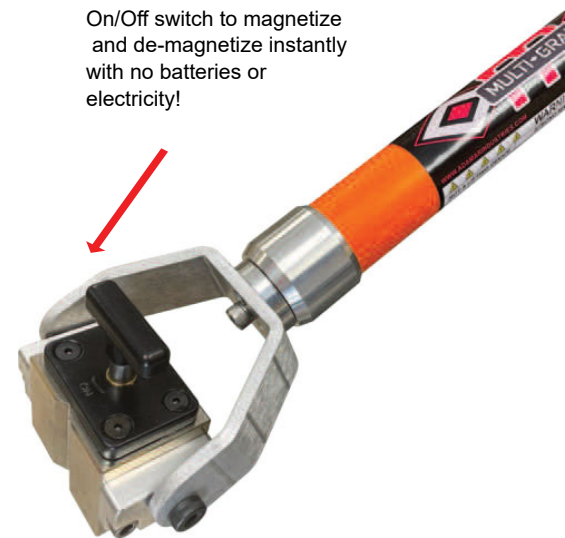

When turned off, there is virtually zero magnetic flux or magnetic field, place the magnet on steel and turn it on to get approximately 380 LBS of magnetic holding power! Simply place it on steel, turn the T-handle to the on position and the magnet is engaged. Twist the T-handle to the off position and the steel parts and pieces fall off or are released.

43050371

43050372

On/Off switch to magnetize and de-magnetize instantly with no batteries or electricity!

Bullivants Mfr No.	Length in.	Length mm	Magnet Strength kg	Weight kg
43050371	12	304.8	172	1.63
43050372	24	609.6	172	1.95
