The Bullivants ADAPTA: Revolutionising the Lifting Industry

The CICA award winning, Bullivants ADAPTA Adjustable HMPE Lifting Sling has everyone talking. This innovative sling has simple installation for faster change outs – increasing productivity.

With easily adjustable legs, this sling provides significant improvements in safety, productivity and reduces the risk of manual handling injuries.

Lightweight in comparison to other slings, the ADAPTA sling has no metal parts, significantly reducing set up time.

Features

- Available in 2 legs
- WLL from 3.3t to 17t (other sizes available on request)
- Manufactured with AmSteel® Blue Dyneema Rope
- High strength to weight ratio
- Eye chafe protection cover against sharp edges
- Optional chafe cover for additional sling body protection
- Red heat shrink adjustment tails for identifying the adjuster grip area and protection of the tails
- Supplied with NATA certificates
- Complies with AS 18264

Benefits

- Torque free for reduced risk of recoil
- Faster change-outs
- Simple installation
- Easy ground level adjustment for uneven loads
- Reduced risk of manual handling injuries
- Easy to store
- Lower cost of ownership
